16. Performance Reports. Documentation summarizing conservation activities, projects and programs implemented by the conservation district during the previous fiscal year.

011. ALLOCATION OF FUNDS TO DISTRICTS.

01. Base Funding. The Commission shall determine the dollar amount to allocate equally to conservation districts on an annual basis. Once the required documents are submitted and determined to be complete, the Commission shall immediately distribute base funding.

a. **Required Documents.** The Commission may require submission of certain documents prior to allocation of base funding to districts: antidegradation plans, financial reports, and performance reports. The Board of Supervisors shall certify in writing that the district has examined all documentation submitted and that the statements and representations in the documents are true and accurate. The district shall submit any required documents by a date established by the Commission.

02. Match Funding. Following determination of base funding, the Commission shall review and approve the additional amount of state appropriations available for proportional allocation to each district in match funding. Match funding will be based upon local funds and services received in the previous fiscal year by each conservation district. As it applies to state match funding, it is intended that donated funds and services be for the general purposes of the conservation district. Expenditure of any such donated funds and services is at the discretion of the conservation district. Funds and services received and designated for specific projects will not be considered when calculating match funding. Once the required documents are submitted and determined to be complete, the Commission shall distribute match funding to each district no later than January 1, 2011.

a. **Required Documents.** Each conservation district must submit match reports prior to the Commission's allocation of match funding. The Commission may also require certain documents prior to allocation of match funding to districts including: antidegradation plans, financial reports, and performance reports. The Board of Supervisors shall certify in writing that the district has examined all documentation submitted and that the statements and representations in the documents are true and accurate. The district shall submit any required documents by a date established by the Commission.

03. State Budget Requests. The Commission shall conduct a public hearing to consider the needs of the conservation districts on or before June 15th of each year, giving twenty (20) days' written notice of the hearing to each conservation district and to all other persons requesting notice of the hearing. The Commission shall hear and consider testimony at the hearing and all information submitted by the districts prior to submission of the annual budget request to the legislature and governor based upon the criteria of Subsection 010.09.
